	Key
	= Stop
Ctrl + x = Cut	
Ctrl + c = Copy	
Ctrl + v = Paste	

Add Spans to content to help highlight some text

```
.yellow{
  color: yellow;
}
<h1>What breed is Fizzle?</h1>
  <p>Fizzle is a <strong>Mountain Feist</strong>. Mountain Feist were originally bred in
  the<span class = "yellow"> Appalachian mountains</span> as hunting dogs.</p>
```

Add Pseudo Classes to your links

```
a:link {color:#FF0000;} /* unvisited link */
a:visited {color:#00FF00;} /* visited link */
a:hover {color:#FF00FF;} /* mouse over link */
a:active {color:#0000FF;} /* selected link */
```

Use Divs to create a header, content area, sidebar, and a footer

```
#header {
  background: green;
}
#footer {
  background: fuchsia;
}
#sidebar {
  background: yellow;
}
#content {
```

```

        background: white;
    }

    <div id="header">
        <h1>Welcome to Fizzle the Feisty- a website about Fizzle </h1>
    </div>
    <div id="sidebar">
        <ul>
            <li>What Breed is Fizzle?</li>
            <li>More About Mountain Feist</li>
            <li>See Fizzle in Action</li>
            <li>Learn about Fizzle</li>
        </ul>
    </div>

```

Add padding borders, and margins to the divs

```

#content {
    margin-left: 200px;
    background: white;
}
#sidebar {
    padding-top: 50px;
    border-right: 2px solid aqua;
    background: yellow;
}
img {
    Padding: 5px;
    Border: 2px solid aqua
}

```

Center the whole document in the browser

```

body {
    margin: auto;
    width: 800px;
}

```

Add width and height to divs (use IDs to target each div with CSS)

```
#header {  
    height: 30px;  
    background: green;  
}  
#footer {  
    height: 20px;  
    background: fuchsia;  
}  
  
#sidebar {  
    width: 200px;  
    padding-top: 50px;  
    border-right: 2px solid aqua  
    background: yellow;  
}
```

Add comments and tables in HTML

```
<!-- Beginning of Table -->  
<table>  
    <tr>  
        <th>Monday</th>  
        <th>Tuesday</th>  
        <th>Wednesday</th>  
        <th>Thursday</th>  
        <th>Friday</th>  
    </tr>  
    <tr>  
        <td>Data</td>  
        <td>Data</td>  
    </tr>  
</table>  
<!-- End of Table -->
```
